PRESENTS

PRESSED JUICES 100%

# QUALITY FOR HEALTH - 100% PRESSED JUICES

We have control over the entire production process of our juices. We produce plants, harvest fresh fruit and finally serve a natural product in glass bottles.

We offer the highest quality pressed juices produced from carefully selected, best varieties of fruit. All this makes them gain exceptional, unique flavors appreciated by consumers.

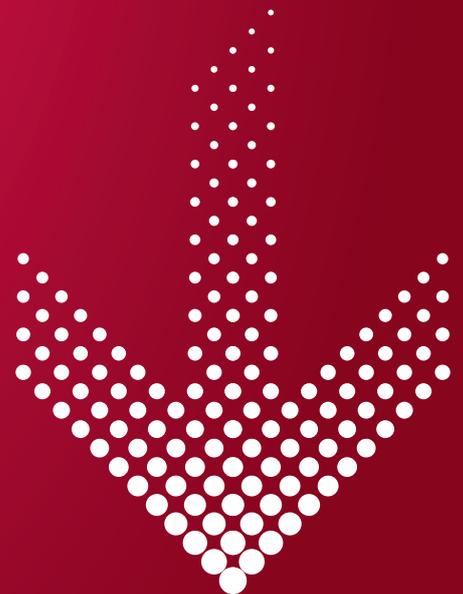

## A FEW WORDS ABOUT OUR JUICES

- NFC juices (not from concentrate) - juices are made by pressing (slow and soft) fruit in traditional press. The juices are unclarified juice, with no added sugar, water, sweeteners and dyes
- do not contain preservatives, thickeners and other chemicals
- the ingredients are 100% fruit in various proportions and NOTHING more! - typical "vitamin bombs"
- in order to obtain maximum freshness, the juices are pasteurized
- typical berry flavors (our intention was to preserve the summer flavors all year round in the form of juice, hence our slogan on the bottle: we spin the flavors of summer ...)

# PRESSED JUICE 100% STRAWBERRY - APPLE - CHOKEBERRY

*Masterful combination*

## GREAT COMPOSITION

**STRAWBERRY JUICE (50%)**  
**PRESSED APPLE JUICE (47%)**  
**CHOKEBERRY JUICE (3%)**

### **Strawberries are good for the heart and help you lose weight!**

It is no accident that strawberries resemble a heart in their shape, as it turns out that they have a beneficial effect on it. By eating strawberries, we lower the level of bad cholesterol and we make it harder to absorb fat while preventing the increase of sugar levels in blood. It is worth remembering that strawberries contain more vitamin C than lemons! Strawberries are low in calories and high in fiber and that's why the fruits preserves, including juices, are a great choice for people who care about health.

Additionally, the pectins contained in apples help in excretion of some heavy metals, cleansing the body of toxins. The sugar found in both strawberries and apples is fructose and which has low glycemic index and metabolized without insulin - therefore our juices can also be enjoyed by diabetics.

Chokeberry - its health properties cannot be overestimated – it is antidote to civilization diseases such as hypertension, atherosclerosis, cancer and eye diseases.

# 100% PRESSED JUICE BLUEBERRY

*Blueberry revel*

## GREAT COMPOSITION

**BLUEBERRY JUICE 100%**

For the proper functioning of the eyesight and the circulatory system

Blueberry fruits have many medicinal properties. Most of them were not appreciated until the 20th century, and from that time the cultivation of blueberries began on a huge scale. Blueberry is especially recommended for memory problems, eyesight it, prevents hypertension and the growth of bacteria in digestive system.

Blueberry fruit and preserves are highly recommended for drivers, pilots and people who spend a lot of time in front of the computer, and this is due to the regenerative effect of anthocyanins present in them. These fruits cleanse the body and protect against cardiovascular diseases by lowering blood pressure. The compounds contained in blueberries additionally help to maintain the proper level of cholesterol in the blood.

Consuming large quantity of blueberry also speeds up the recovery of damaged nerve cells, and even stimulates the production of new ones. This allows you to keep a good memory, delay the aging process and keep a pretty complexion, thanks to vitamins A and C contained in blueberries.

## PRESSED JUICE APPLE - HASKAP

*Apple and berry romance*

### GREAT COMPOSITION

**PRESSED APPLE JUICE (65%)**

**HONEY BERRY JUICE (35%)**

Despite of the fact that the Honey Berry is not such a popular fruit as raspberry or strawberry, it's healing properties were well known centuries ago. There are more and more crops of this fruit in our country, more people know that the Honey Berry can be used in natural medicine. Honey Berry belongs to the category of superfood - super fruit rich in ingredients beneficial to our health and beauty.

It is mainly known as a restorative. As it lowers the blood pressure. Honey berries prevents a heart attack or anemia. They are considered to be a huge source of vitamin C - they contain from 30.5 to 186.6 mg ascorbic acid per 100 g of fruit, which is a similar result as in red currant, orange or kiwi fruit. In addition to the aforementioned vitamin C, the Honey Berry also contains vitamin B and many ingredients such as magnesium, calcium, phosphorus and potassium.

People struggling with diabetes should eat Honey Berry more than any other fruit. Honey Berry - it normalizes the level of glucose and lipids. Moreover, it strengthens blood vessels, inhibits hemorrhages, soothes stomach discomfort and indigestion, helps in the fight against cancer and aging of the body, eliminates colds and influenza flu, has anti-inflammatory properties, inhibits the growth of bacteria and viruses, has a beneficial effect on eyesight, after fatigue it, regenerates and energizes the body, affects brain work. Daily consumption by people, e.g. for the elderly, improves memory, concentration and fights the symptoms of depression.
